### **PLANTS IN HENAN WERE NOT AFFECTED BY EARTHQUAKE IN CHINA**

The Board of Directors of China XLX Fertiliser Ltd. (the "Company", together with its subsidiaries as the "Group") would like to announce that the Group's plants and operations in Henan were not affected by the earthquake that occurred in Sichuan yesterday. Henan is located more than 1,000 km away from Sichuan. There is also no impact on our procurement of raw materials. We currently have sufficient coal supplies in stock. We are located close to the coal mines in Shanxi and there were no reports of disruption in the supply lines. There is also no impact on sales as we have no sales to Sichuan province.
